- E. Portable and temporary signs shall be prohibited.
- F. Billboards or other off-premise signs shall be prohibited.
- G. All signs shall be setback a minimum of 15 feet from the right-of-way.

VI. DRAINAGE:

- A. All drainage plans shall be submitted to the City/County Engineer(s) for review.
- B. Drainage improvements, including possible on-site detention, to be provided under contract in accordance within the Subdivision Regulations and the City of Memphis Drainage Design Manual.
- C. This project must be evaluated by the Tennessee Department of Health and Environment regarding their jurisdiction over the watercourses on this site in accordance with the Water Quality Control Act of 1977 as amended (T.C.A. 69-3-101 to 69-3-131).

- VII. The Land Use Control Board may modify the bulk, access, parking, landscaping, loading, screening, signs and other site requirements if equivalent alternatives are presented; provided, however, any adjacent property owner who is dissatisfied with the modifications of the Land Use Control Board and hereunder may, within ten days of such action file a written appeal to the director of Office of Planning and Development, to have such action reviewed by the appropriate legislative bodies.

VIII. DESIGN:

- A. Commercial and office buildings shall be constructed using a consistent style and materials.
- B. Gasoline sales islands and canopies shall be designed as an integral part of the principal structure.

IX. SITE PLAN REVIEW:

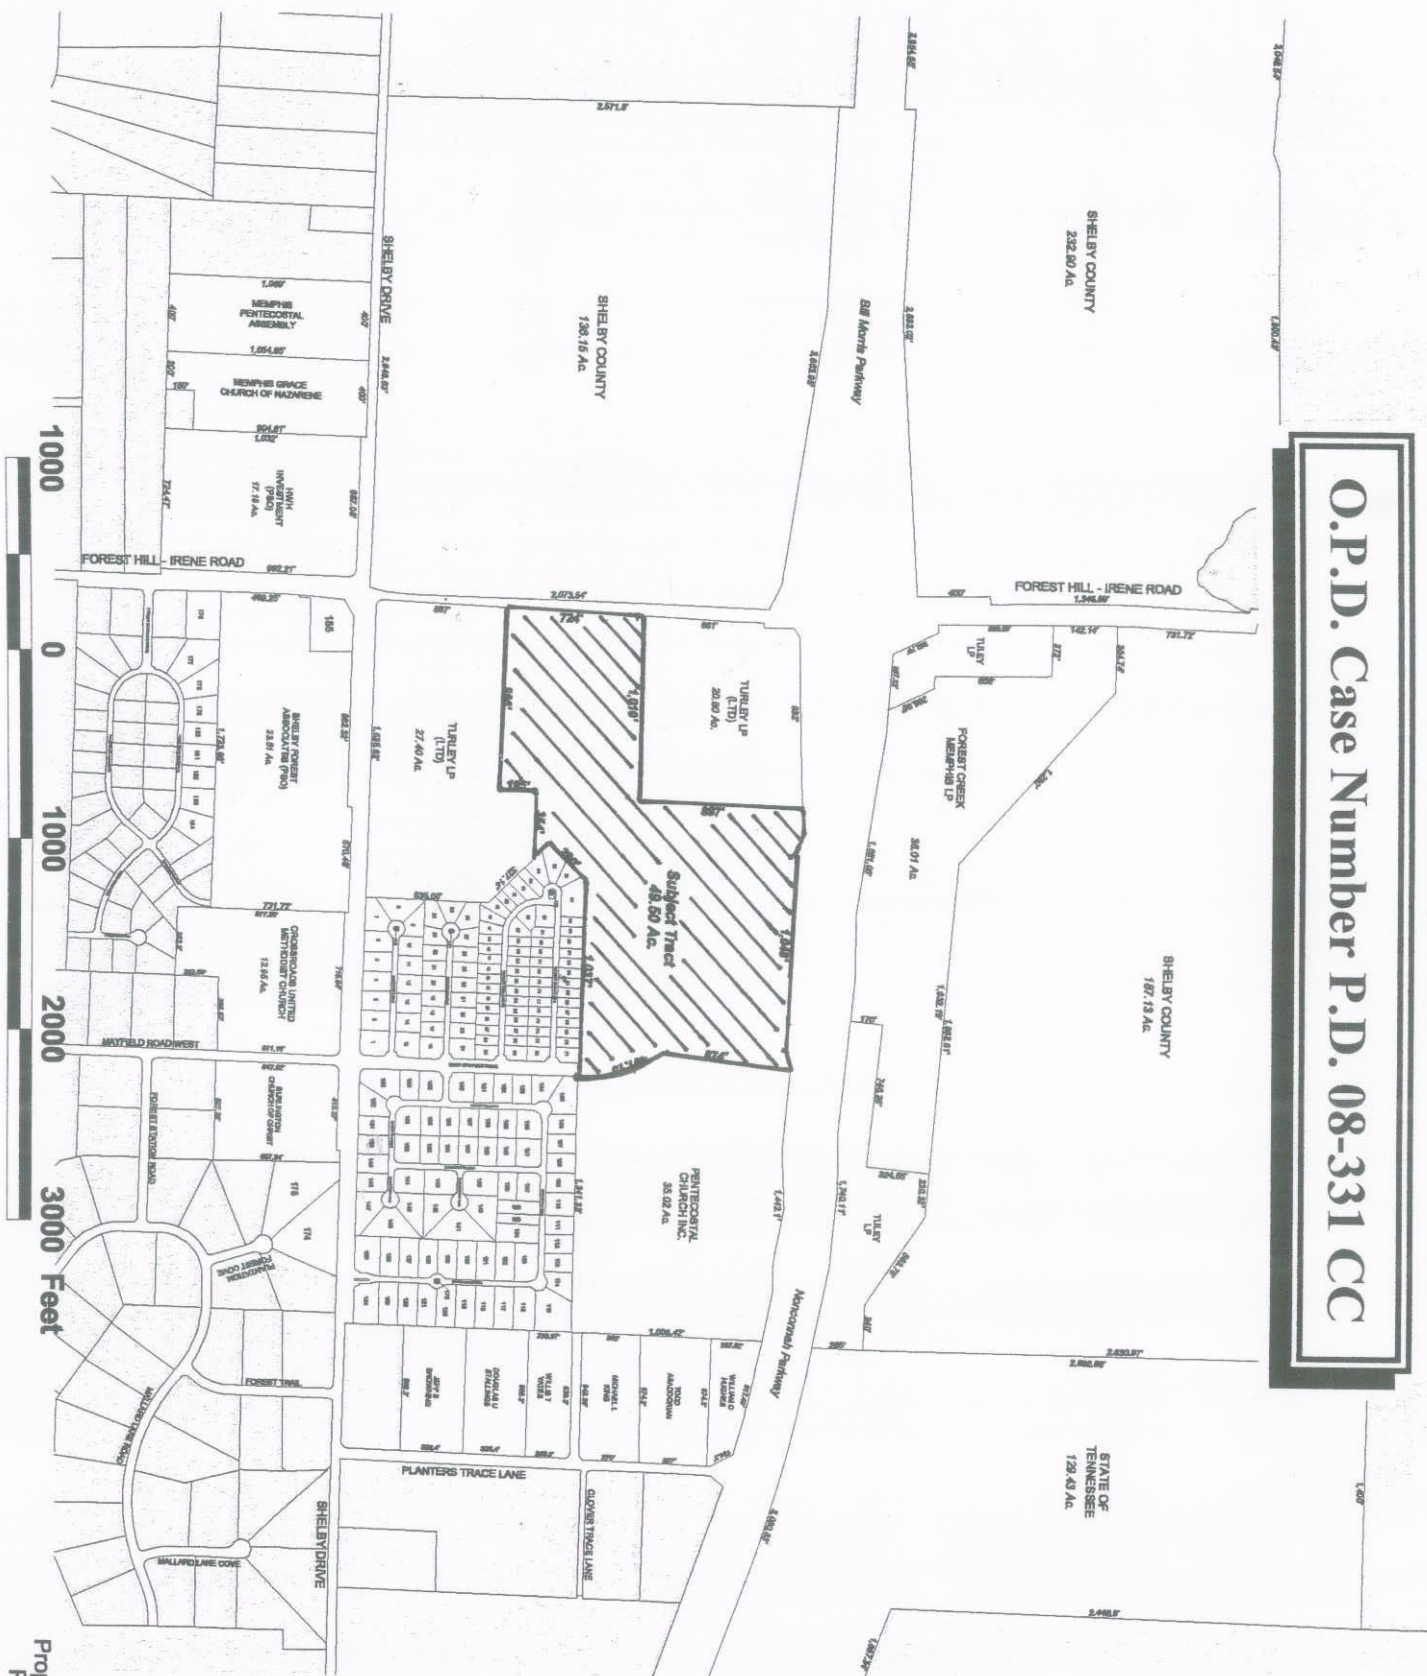

- A. A site plan shall be submitted for the review, comment and recommendation of the Office of Planning and Development(OPD) and appropriate City and County agencies and the approval of the Land Use Control Board prior to approval of any final plan for Areas 1, 7A and 8.
- B. The site plan shall be submitted at least twenty days prior to a Land Use Control Board meeting and shall include the following information:
 1. The location and dimensions of all buildings (commercial and office), buildable areas (residential), signs and parking areas.
 2. The layout of all public streets, private drives and the dimensions and area of all lots.
 3. Specific plans for internal and perimeter landscaping and screening.
 4. Location and dimensions, area and dimensions, including landscaping of all open space features.
 5. Illustrations of the design and materials of any proposed buildings and signs.

- C. The site plan shall be reviewed based upon the following criteria:
 - 1. Conformance with the Outline Plan Conditions.
 - 2. Adequacy of facilities (streets, sewers, drainage, etc.) and conformance to the Subdivision Regulations and Standards.
 - 3. Building orientation and setback.
- X. Final plans shall not be approved until the site plan for that phase is approved by the Land Use Control Board. The Board may approve, approve with conditions, or reject the site plan. If necessary, the Board may take the matter under advisement or defer the decision until the next regular meeting of the Board.
- XI. A final plan shall be filed within five(5) years of the approval of the Outline Plan. The Land Use Control Board may grant extensions at the request of the applicant.
- XII. Any final plan shall include the following:
 - A. The Outline Plan Conditions.
 - B. A standard subdivision contract as defined by the Subdivision Regulation for any needed public improvements.
 - C. The location and dimensions of buildings (commercial and office) or buildable areas (residential), pedestrian and utility easements and required landscaping and screening areas.
 - D. The specific content of all landscaping and screening to be provided.
 - E. The location and ownership, whether public or private, of any easements.
 - F. A statement conveying all common facilities and areas to a homeowners' association or other entity for ownership and maintenance purposes.
 - G. The following note shall be placed on the final plat of any development requiring on-site storm water detention facilities: The areas denoted by "Reserved for Storm Water Detention" shall not be used as a building site or filled without first obtaining written permission from the City/County Engineer, as applicable. The storm water detention systems located in these areas, except for those parts located in a public drainage easement, shall be owned and maintained by the property owner and/or property owners' association. Such maintenance shall be performed so as to ensure that the system operates in accordance with the approved plan on file in the City/County Engineer's office. Such maintenance shall include, but not be limited to: removal of sedimentation, fallen objects, debris, and trash; mowing; outlet cleaning; and repair of drainage structures.
 - H. The following note(s) shall be included on any final plat filed for this development if Area 8 is developed as single family residential:

"This is a private development. The Homeowners' Association is solely responsible for all maintenance and repair of private facilities including streets, roads, sewers and storm drains. There is not, nor ever will be, any County or City responsibility for these facilities."
 - I. The Outline Plan shall be recorded to reflect any area change of use and changes to the Outline Plan Conditions prior to the recording of the next phase of development.
 - J. *The Outline Plan for Forest Creek Planned Development, 2nd Amendment (P. D. 02-365 CC) shall be revised to reflect this plan amendment and shall be re-recorded with the Office of Shelby County Register.*
